Dear Mr. Novak,

This response is in regard to the most recent letter I received on March 14, 2020. As stated in the questionnaire I completed last Spring concerning my property located at 401 W. Morgan Street, Spencer, Indiana, at no time during my ownership of this property was there any dry cleaning machine or solvent on the property. Also, when I purchased it in the early 1990's a Phase 1 was conducted by my lender, Peoples State Bank, which did not indicate any history of such equipment except that we were a Drop-off and Pick-up point for Courtesy Cleaners out of Bloomington, Indiana.

Much to my surprise, approximately a month after I returned the questionnaire, I was informed by the previous owner, Richard Dyer, that he also received a questionnaire regarding this matter. He told me that he did in fact have a coin-operated dry cleaning machine in the early 1970's for a period of time. I was also surprised not to see his name on the list of potentially responsible parties. I spoke with August Mac Environmental Consultants to get a better understanding of how this entire process works. I am also going to take your advice and contact the necessary organization(s) on the U.S. EPA Small Business Resource Information sheet that you provided to obtain further information.

This response should not be interpreted as being unwilling to participate, I just believe I need to be better informed and educated in this matter regarding my specific responsibility. I also would appreciate you contacting me directly at (317) 691-0649 as I have additional questions.

Sincerely,

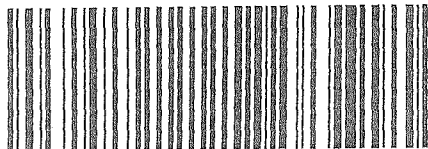

W. Michael Gedig
